Kites Nursery Newport

Settings which required follow up activity following a joint inspection

CIW and Estyn inspected the setting in February 2019. The inspection team found that the setting required follow up activity. In the interim period, the setting ceased to offer funded early Education for children.

The setting has now re-registered as a provider of early Education. We met with Officers of the Local Authority's early Education team to discuss the setting's progress, leading to a decision to remove the setting from the list of providers requiring follow up activity.

Yours sincerely

Ceri Herbert
Care Inspectorate Wales

Kevin Davies
Acting Assistant Director
