

Flintshire Youth Service

Flintshire Youth Service offers a wide range of valuable opportunities that help young people build confidence, resilience and useful life skills

We (Estyn, the education and training inspectorate for Wales) inspected Flintshire Youth Service in June 2026.

What you can expect from Flintshire Youth Service:

- ♥ Supportive youth workers who listen to young people, know them well and help them feel safe, respected and included
- ♥ A wide range of opportunities, including youth clubs, outdoor learning, Duke of Edinburgh, volunteering, youth voice, issue-based projects, residential experiences and targeted support
- ♥ Help to build confidence, resilience, well-being, independence, leadership skills and practical life skills
- ♥ Opportunities to have a say, influence decisions and take part in youth council, consultation and community action
- ♥ Inclusive support for young people with different needs and backgrounds, including LGBTQ+ young people, young people with ALN, neurodiverse young people, young parents and those at risk of becoming NEET
- ♥ Projects that help young people explore important issues such as healthy relationships, consent, identity, misogyny, mental health, citizenship and keeping safe

What you may not get at Flintshire Youth Service:

- ♥ The same quality of open access youth work in every setting, as practice is stronger in some youth clubs than others
- ♥ Clear information about all the opportunities available, as awareness of the full youth service offer is not yet consistent among young people and partners
